PAUL DUMAS

Product Builder (PM/PO) with a strong Data & AI Expertise

07 77 34 84 90
paul.dumas9@gmail.com
Bordeaux, France

ABOUT ME

Passionate about Tech & Product, I thrive on turning ambitious visions into concrete solutions and building AI-first tools.
I love the 0 to 1 energy, building things from scratch and pushing beyond my scope.

EDUCATION

Ecole Centrale de Lyon
2017- 2021
Intrapreneurship & Business Development

Lycée Stanislas, Paris
2015 - 2017
Preparatory Classes (MP)

Lycée St-Genès, Bordeaux
2015 - Bac S (TB)

SKILLS

Fully fluent in English & French

Strong knowledge in SQL, Python & DataViz (Tableau, Metabase, Amplitude)

For my professional productivity as well as for my personal side projects, I mostly use tools such as Cursor, Claude Code, Vercel, Supabase

Curious and keen on learning, I regularly take new certifications

PROFESSIONAL EXPERIENCE

Product Manager| Betclic

2023 - Present | Bordeaux

Led a 7 people Data & AI squad, for the Responsible Gaming Strategy & Operations

- Built the **data product vision and strategy**, to protect players and meet regulatory requirements
- Delivered a full detection system, shipping ML & LLMs to analyze millions of transactions. **Multiplied volume of reviews as well as accuracy by 3**
- Worked closely with Ops Teams (50 people) on an internal back-office with automated actions (**+25% productivity**), and on evaluating AI alerts
- Delivered continuous data-driven insights and tools to track performance

Promoted to the Account Management Product Team, leading transverse topics around Identity verification

- Currently reshaping the full registration funnel, to increase the share of verified accounts conversion using integration with banks and other external providers
- Owned the **full customer lifecycle,** providing a clear audit trail of main events from Account creation, to KYC validation and AML or Fraud screening
- Shipped an internal **AI product-os** (mixing Claude skills, agentic workflows and tools) to boost productivity of all PMs, and ran training sessions to drive adoption

Strategic Projects Manager | Cubyn

2021 - 2023 | Paris

Contributed to shaping the Product & Business strategy for a Next40 company, working closely with all C-levels

- Identified key market segments and opportunities with quantitative analysis and user research, to **build the product roadmap and the OKRs**
- Built a **live pricing simulator** for the **Sales Team**, to negotiate margins in real time. Also contributed to building tailored offers and winning deals.
- **Bridged the gap between Sales & Product** to prioritize key features by impact, and track Sales Operations metrics
- Redesigned the whole pricing strategy to meet margin goals, and translated it on financial budget & forecasts, supporting a **Series D fundraising (15M)**

Financial Auditor, EY | Innovation Consultant, In Extenso

2021 (Paris) & 2020 (Bordeaux)

Gained cross-functional expertise in corporate & innovation funding with internships:

- Audited financial statements of large French companies, **assessed financial and operational risks**
- Advised early-stage tech startups on **product strategy**, funding research efforts (CIR, CII, JEI...), and preparing **innovation contests**

OTHER INTERESTS

Sports - Rugby in competition (20+ years), Trail
Side Projects - I'm leveraging AI tools to build small PWAs, and exploring how to move from simple chatbots to AI-first products. I've worked on personal topics to plan and manage my sports sessions, my recipes, my productivity... and to learn about RAGs, MCPs, and agentic workflows
